TO WHOM IT MAY CONCERN:

Kaeyer, Garment & Davidson Architects, PC has a long-standing professional relationship with Damiano Barile located in White Plains, New York.

Damiano Barile has been our Mechanical and Electrical Engineer for many projects in both the public and private sectors ranging in value from \$400,000 to \$40,000,000. Our work together includes both new construction and detailed renovation work with educational, religious, commercial and housing clients.

One of Damiano Barile's real strengths is their commitment throughout the project. Not only do they provide quality documents on time, but they have demonstrated at the critical ends of the process an ability to perform. At the beginning of design they provide critical analysis of different systems to aid the owner in decision-making. They also follow through during construction to ensure a complete finished product per the approved construction documents.

We would be happy to discuss Damiano Barile further with you. Please do not hesitate to call us.

Sincerely,

Kaeyer, Garment & Davidson Architects, PC
